- Five out-of-state cruise ships came to the islands in December 2009 with 8,974 visitors, compared to six out-of-state ships which brought 13,010 visitors last December. This resulted in a 31 percent decline in arrivals by ship in December 2009.
- The number of cruise visitors who came by air to board cruise ships in the islands increased 6 percent from December 2008.
- For all of 2009, a total of 216,152 visitors came by cruise ship or by air to board cruise ships, 18.9 percent lower compared to 2008. Visitor days for all cruise visitors in 2009

decreased 20.2 percent compared to last year. Except for increases in April (+3.5%), July (+17.7%) and September of 2009 (+4.4%), growth in total cruise visitors declined 22 out of the last 25 months since December 2007.

- In 2009, 95,244 visitors arrived on 53 out-of-state cruise ships. This was down 13 percent compared to 109,475 visitors aboard 68 cruise ships that came to the state in 2008. Total visitor days for those who came by cruise ships decreased 15 percent (See “Arrivals at a Glance” Table on page 2) compared to calendar year 2008.

**Technical note:** The random sampling methodology is not intended to quantify singular events such as a sports event or convention, but rather, to identify trends taking place across an entire month or on an annual basis. Based on this methodology, while certain events may report increases in attendance; any increases could be offset by decreased attendance at other events. Additionally, events that occur at the end of or the start of a month could result in data being reflected in the subsequent month, i.e. a November event with attendees who stayed through December. Data in this specific instance would be reflected in December figures.
